

Release Notes

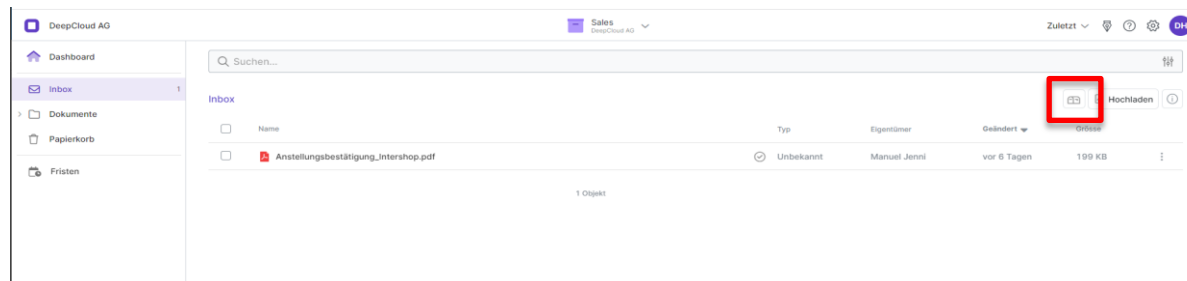

With the release from 01.12.2022, extensions and improvements were implemented in the following areas.

Area Details

Editor **Fixed bug where Ctrl + Scroll no longer worked for zoom**

DeepAdmin **New address function with "Mail-to-Inbox" and direct upload**

This function is only available for "Advanced Boxes". In DeepAdmin there is also a new overview of all generated addresses per box.

Details

DeepBox Frontend

Fixed a bug where the initials of the user avatar did not match the admin if the user had multiple names.

Onboarding

Updated DeepSign onboarding for the new Pay Per Use pricing model

5 Einfache Elektronische Signaturen (EES) sind kostenlos enthalten, wenn Sie Ihre DeepBox zum ersten Mal aktivieren.

Clients

Android: Fixed an issue where the user received an unclear error message when uploading to a folder with missing permissions.

Subscriptions

Introduction of a new, more flexible pay-per-use pricing model (existing users can keep their subscription if they want)

Signature order can now be defined
