

Various bug fixes and improvements, such as

- Various improvements to the thumbnail preview in the File Explorer
- Observe function: bug fixed where logged out users were not always redirected to the login page when opening the document link
- Mail to Box (URL): improved upload dialogue
- Optimised display of multiple active tags

Hide date and name on visual signature

In the DeepSign settings, it is possible to customise the display of the visual signature. The date and name can now also be hidden. The configuration of the visual signature is possible from the Small subscription onwards.

Signature appearance

Starting from the **Small** plan, you can customise the appearance of the visual signature within your organisation. Upgrade your plan [here](#).

- Level of Security
Setting applies to all signatories
- Additional text
Only displayed if defined by the signatory
- Location
Only displayed if defined by the signatory
- DeepSign Logo
Setting applies to all signatories
- Name
Name of the signee
- Date
Date when signing takes place

Preview the visual signature of your organisation

Various bug fixes and improvements, such as

- Improved error handling when user no longer has access to the document
- Optimised process for signature invitations with mismatched email addresses
- UI optimisation when rejecting or withdrawing documents
