Various improvements, such as

- Train DeepO: Keywords can be entered in the "Delivery date" and "Delivery period" fields.
- Starting with Abacus version 2024 / Hotfix 15.07.2024, only active currencies from Abacus will be uploaded to the DeepBox.
- From Abacus version 2023 / Hotfix 15.06.2024, the second project number is uploaded to the DeepBox if it is managed in Abacus. The setting in programme N621 is taken into account (use of project number1/2).

Various bug fixes and improvements, such as

- Optimised behaviour when changing folders quickly
- Improved handling of cases where a user has access to the same box through two organisations
- Improved loading icon for the file explorer
- Optimised behaviour when uploading multiple files where one file is faulty
